

Monthly report - April 2017

The activities carried out during April 2017 can be summarized as follows:

Action D2:

- Sampling of gas from Greece and Italy and analysis by gas chromatography. First elaboration of data until March 2017 and calculation of cumulative emissions and global warming potential of the first period after thinning. The work has been done by CREA and DUTH, during the visit of the PhD student Fotini Doukalianou supported by the short term scientific mission funded by the COST action BioLink

Action E8

- Preparation of the workshop organized by Città Metropolitana di Firenze at VILLA DEMIDOFF, Parco mediceo di Pratolino, that will be held on 15 May 2017

Action E10

- Participation at the congress: SUSTAINABLE RESTORATION OF MEDITERRANEAN FORESTS. Analysis and perspective within the context of bio-based economy development under global changes. PALERMO 19-21 APRIL, 2017. We presented one poster and two oral presentations about the results from Greece and Italy.
