***2. FORESMIT NETWORKING..... 4***

## **1. INTRODUCTION**

This report presents the results of the activities related to FoResMit Actions E.9 from the start of the project (01/09/2015) until the mid-term period of the project (30/09/2017).

In particular some FoResMit beneficiaries activated networking activities with other 6 projects.

The target groups of the FoResMit networking activities were other projects related to the following topics:

- forest management,
- tree safeguard,
- relation between forest, tree and climate

## 2. FORESMIT NETWORKING

During the Mid-Term period of the FoResMit project, all the beneficiaries were responsible of networking activities stimulating an international exchange of ideas among consortia that have been working in the past or present on similar topics.

In particular some contacts were activated with the following projects:

- SelPiBioLife (LIFE13 BIO/IT/282)
- HESOFF LIFE (LIFE11 ENV/PL/459)
- LIFE CarbOnFarm (LIFE12 ENV/IT/719)
- LIFE Future For Coppices (LIFE14 ENV/IT/514)
- LIFE Clima Tree (LIFE14 ENV/GR/635)
- LIFE VITISOM (LIFE15 ENV/IT/392)

The following table characterizes (with the definition of when, where how, which project who and topics discussed) in detail the specific activities carried out during FoResMit networking defining also the dissemination material distributed:
